

**3.4.4 ENVIRONMENTAL POLICY & OBJECTIVES**

It is the Policy of **Primus** to plan and perform all construction and related activities in an environmentally sensitive manner so as to minimise adverse environmental impacts. Every member of the organisation is committed to continual improvement in the fulfilment of our environmental legal obligations and other requirements to which we subscribe, in ensuring the conservation of resources, to the prevention of pollution and the elimination of environmental hazards which may be associated with our activities.

To ensure achievement of this Policy, an Environmental Management System will be established to meet, and continue to meet, the requirements of BS EN ISO 14001 : 2004.

**Primus** Environmental Objectives are :

- ☞ To fully meet Client and interested parties stated and/or perceived environmental expectations by the prevention of pollution, by the adoption of sustainable operational practices and the optimised use and consumption of resources.
- ☞ To minimise the environmental impact of our activities by the implementation of efficient operating methods, the maintenance of the most effective available waste management techniques and the provision of effective training in environmental best practices.
- ☞ To maintain awareness of and to comply fully with appropriate environmental legislation, regulations and contemporary standards and codes of practice.
- ☞ To continually review and monitor all aspects relating to our activities to identify opportunities for implementing environmental performance improvement.
- ☞ To ensure that this Policy and supporting processes are understood by and communicated within the organisation and that this Policy is made available to the public.

Environmental Management implementation is through application of the **Primus** Business Management System, compliance to which is mandatory. **Primus** will endeavour to ensure that all relevant aspects of good Environmental Management are effective, in operation and that the all persons working with and for our organisation are fully aware of their roles and responsibilities in this regard.

It is our responsibility to ensure the Business Management System functions correctly and its effectiveness is maintained through monitoring, control, audit and review.
